Show Question Route
 (s)

1. As confirmation you are a Staplehurst resident, please enter your full postcode.
 (Responses with incomplete or non-Staplehurst postcodes will not be included in the survey results analysis)

.....

Future Development of Staplehurst

The way a locality develops and evolves is not down to any one person, group or organisation. It is a unique combination of history, time, place, circumstances, the activity, work, and influence of individuals and companies, government policies, and many other factors.

A trend in one aspect of a locality, e.g. increase in the number of shops or decrease in commercial businesses can have a negative or positive impact over time on other aspects of community development and life, for example population or traffic volumes.

2. In overall terms, how would you like to see Staplehurst develop? If you opt for more development in the choices below, subsequent questions will ask you what you would like to see provided.

.....

You have indicated that you would prefer no more development. This means no more houses or shops, no more offices or industry. There would not be any new buildings for educational, social, leisure or recreational use.

3. Are you happy that this will be the case?

.....

You have indicated that you would like to see further development in Staplehurst.

4. Which of these would you like to see provided?

- More houses
- More small shops
- More offices
- More industry
- A supermarket
- A secondary school
- A sports centre
- More parking

5. Is there anything else specific you would like to see provided?

6. If there is more development, what do you think could be done to minimise the impact of the increased traffic volumes in and through Staplehurst that will occur?

.....

Community Centre Premises

The 'Village Centre' community premises (the old school not The Parade of shops) is maintained and run by a charitable trust.

Any decisions or initiatives to improve or redevelop this building would be led by that trust and would require significant funding which is as yet unidentified. The Trust welcomes your views on the future of the community centre premises.

7. In your opinion, the existing Village Centre building should be...(choose one only)

Kept as it is, other than routine maintenance and decorating.

Upgraded internally to make it more modern, but otherwise does not need to be extended or modified.

Upgraded, modified and extended to make better use of the site.

Demolished, and a new purpose built community centre built on the current site.

Sold, and a new community centre built on another site in a central location.

Sold ,and a community centre built on another site in a non-central location.

Retained, in full or in part and additional community premises developed on another site.

I do not have an opinion what should happen to the community centre building.

8. Would you be prepared to have an increase in your council tax to fund the maintenance, improvement, extension or relocation of the community centre premises?

.....

9. Which of the following activities, if available in the community premises, would actually be used by people in your household? You can tick more than one or none.
